

OMNIC™ Paradigm

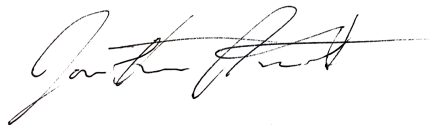

Version 2.6

Certificate of Software Validation

This version of OMNIC™ Paradigm software was developed by Thermo Fisher Scientific's Madison, Wisconsin, development and manufacturing site and has been designed, tested, and manufactured in accordance with that site's ISO 9001 compliant Product Development Process.

Development is monitored with business plan reviews, quality audits, technical reviews, and complete system validation. Compliance of design elements to product, design, and validation specifications is verified through a traceability matrix. The precision and accuracy of software code and algorithms are verified through an approved test plan, release candidate testing, and documented test results. This ensures that you receive quality software products from Thermo Fisher Scientific Inc.

Release Notes for the version are provided with the software.
