Re: Discontinuation: Thermo Scientific™ General Purpose 4L Benchtop Centrifuges

Dear Customers and Channel Partners:

We are writing to inform you of the upcoming discontinuation of the **Thermo Scientific™ General Purpose Centrifuges**. This change is part of our continuing effort to update our product portfolio and provide innovative solutions that best suit our customers' sample-processing needs.

The final plans for production for agreed-to last quantities are in place and we are now building according to our final orders. No quotes will be issued after November 28th 2019.

As part of our continuing commitment to innovation and improvement, in 2019 we launched our **NEW Thermo Scientific™ 4L General Purpose Pro Centrifuge Line** as a replacement for these discontinued products. The newly launched General Purpose Pro Centrifuges feature improved design and ergonomics, state-of-the-art regulatory and safety compliance and a new full color touch-screen, **all with the same Autolock, ClickSeal biocontainment, high capacity and speed!** A detailed cross reference can be found in the table at the end of this memorandum.

We are committed to providing service and support for the discontinued products listed below through January 1st 2026.

Discontinued PN	Description of discontinued PN
75004503	Heraeus Megafuge 40 230V 50/60Hz
75004504	Heraeus Megafuge 40 120V 60Hz
75004519	Heraeus Megafuge 40R 120V 60Hz
75004518	Heraeus Megafuge 40R 230V 50/60Hz
75004501	Heraeus Multifuge X3 120V 60Hz
75004500	Heraeus Multifuge X3 230V 50/60Hz
