How to Change Battery on TSX Series ULT Freezers

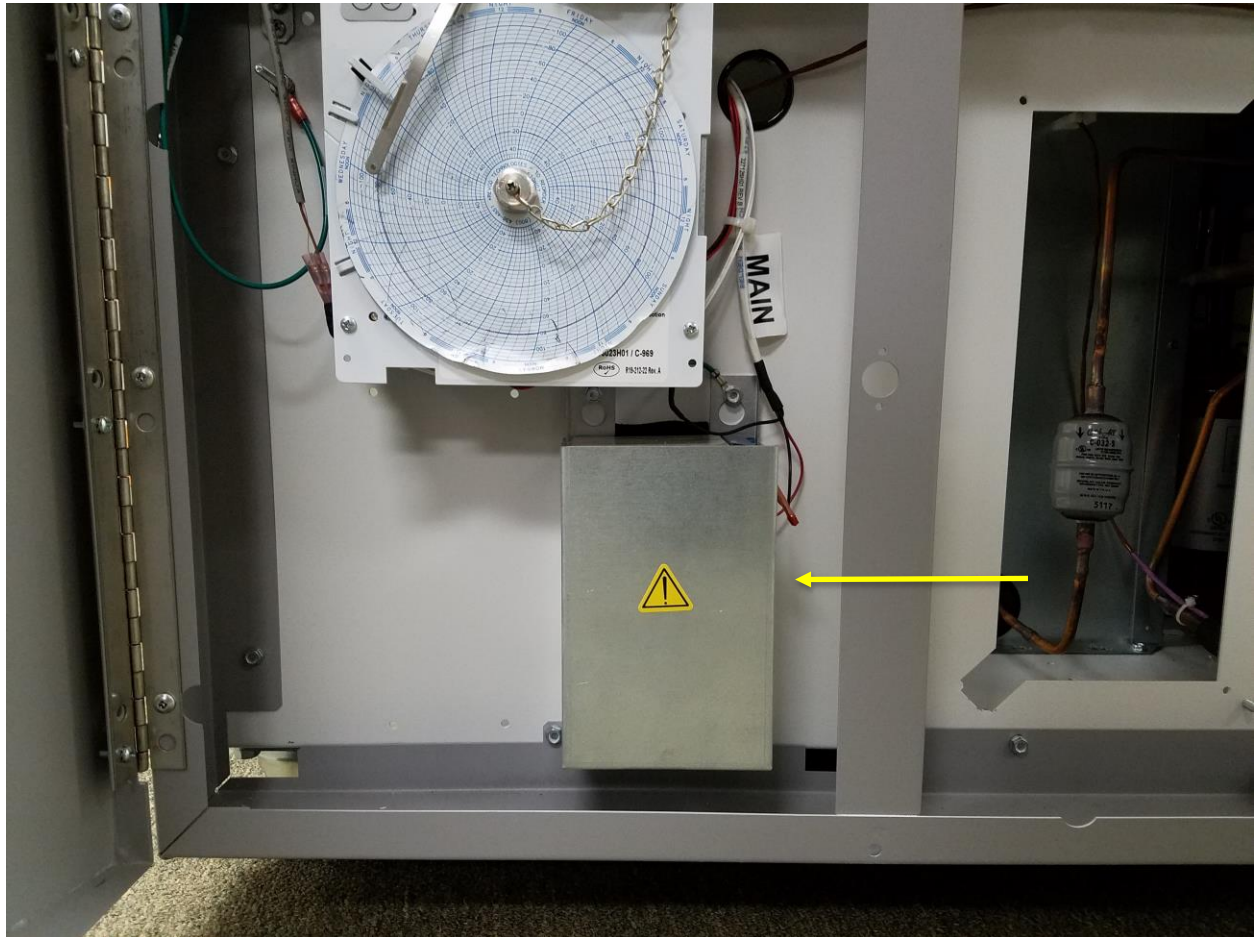

TSX, RLE, TLE, HLE, 89000
Revision Date: September 24, 2018

How to Change battery on TSX Series ULT Freezers

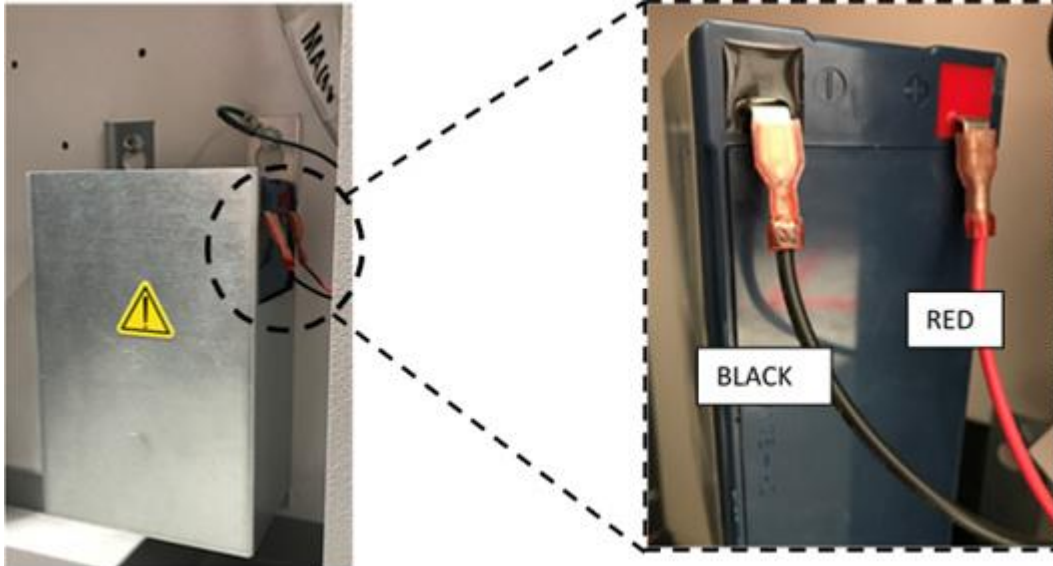

1. Open the door on the bottom of the unit.

.

How to Change battery on TSX Series ULT Freezers

The battery(s) are located at the front of the compressor deck, behind the bottom front panel door. The yellow arrow is pointing to bracket that holds battery in place.

2. Label and disconnect the two red and black leads from the battery. Loosen the three bracket screws (do not remove screws) and remove the ground screw and lift bracket. Remove the expired battery and recycle or discard according to proper procedures.
